- ✓ UV resistance
- ✓ Scratch-resistant surface
- ✓ Hygienic surface
- ✓ Splash-proof surface
- ✓ Easy to clean
- ✓ Perfect adhesion of decorative melamine sheet to the MDF plate
- ✓ Wide choice of designs and surface structures

Description

UniDECO mdf is a panel with an MDF core and a decorative melamine layer in which a stylish surface structure is pressed on the top and bottom surfaces under high pressure. The melamine process binds the design sheet permanently to the MDF board. **UniDECO mdf** is used for many applications in the furniture and interior construction industry.

Range and options

Unique vertical integration within the **UNILIN, division panels** means you have a wide range of options for UniDECO mdf.
